There was discussion on the invoice that was paid to Interstate Engineering for preparing and submitting the ARPA application to apply for funding for the new swim pool. City Attorney Sullivan mentioned since there was no authorization from the City Council to apply for this funding, the city shouldn't be liable for the costs and should be paid out of the pool fund or the recreation department budget. Council member Karst said that he had talked with DPW Kompel and he said the ARPA money could be used for these services. DPW Kompel said that since DNRC has come out with strict regulations on this money, it can't be used for engineering services to apply for funding. Council member Ozark said the city should pay for the invoice this time since we've been lax on setting money aside over the past years. Council member Ozark made a motion to pay the invoice in the amount of \$3,260 out of the general fund and any additional costs for applying for funding need to be presented to the council by the committee for approval. The motion was seconded by Council member Heitman, and carried unanimously.
