

Tam style sign

V-shape configuration (high set sign)

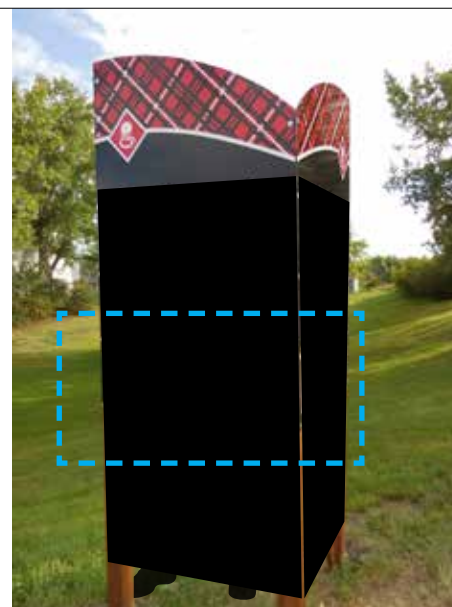

Kilt style sign/kiosk

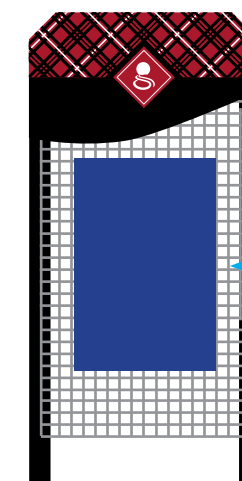

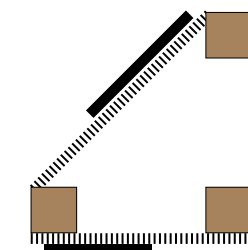

Safety and Accessibility considerations for the design of the kiosk at the Glasgow High School

Option 1 - high set, V-shape
High set reduces concealment,
but detrimental to accessibility

Option 2 - low set, V-shape
High set increases concealment,
but increases info. accessibility

Option 3 - 2-4 sided, see-through, closed space
Decreases concealment,
allows for info. accessibility

- mount maps to see thru mesh backer
